

Information for Authors

„i-com – Journal of Interactive Media“

All contributions to the "i-com - Journal of Interactive Media" undergo a (single-blind) peer review process prior to publication. To manage the peer review process, the publisher uses the online system "Scholar One Manuscripts".

Please submit your paper in English for peer review through the system at <https://mc.manuscriptcentral.com/icom>. The system will ask you for the required information and finally ask you to upload the appropriate files.

You need to upload

- Main Document (Word or PDF) – the main text with bibliography – you do not need to anonymize the manuscript

You should upload

- Authors Biography – portrait image and short biographies (about 300-400 characters without whitespace)
- Separate files for figures / images (including portrait images in author biographies)
- When preparing the manuscript in LaTeX a ZIP file of the LaTeX single files

Submission information can be found on the Journal home page at <https://www.degruyter.com/view/journals/icom/icom-overview.xml>. You do not need to use a template for manuscript preparation in LaTeX or Word – however, you may use the templates provided on the journal homepage.

Figures in the article

Please save each figure in a separate image file, ideally as -.eps or -.tiff file. The minimum resolution of tone value illustrations (e.g. photographs) should be 300 dpi, whereas for screened line drawings (e.g. graphics) it should be 1,200 dpi.

If you have any questions or problems with the submission, please contact the publisher's editorial contact listed on the homepage.
